

HANDS UP

HEXAROPE

Discover the ingenious "Hands Up" by Hexarope, designed to tackle the age-old problems of knot tying in arboriculture during Rigging operations especially the knot tightening caused by dynamic load.

With its knotless chocking catch system, "Hands Up" ensures smoother and **faster operations**, preserving the rope's integrity, its breaking strengths and **enhancing safety**.

Ideal for arborists seeking efficiency and reliability in their rigging work. Join the arborist revolution with Hexarope's latest innovation.

HANDS UP

	Article Code	Weight (Gr)	Rope compatibility (Ø mm)	Sizes (cm)	MBS (kN)	WLL (kN)
HANDS UP S	HX02282	136	9 to 12	Ø 75 x 12	39	6,5
HANDS UP M	HX02283	252	12 to 16	Ø 90 x 15	60	10
HANDS UP L	HX02284	487	16 to 20	Ø 124 x 18	96	16

The HANDS UP is not a PPE but must be used by professionals. Adhering to the WLL is essential to ensure worker safety and avoid any risk of accidents related to equipment overload

Versatile configurations designed for use mainly in arboriculture, but also for winching, vehicle recovery, logging, agriculture, and other related fields...
