

# TUNA

- THROW BAGS -

## DIAMETERS & COLOURS

- Yellow - 240g
- Pink - 290g
- Orange - 340g

## KEY FEATURES

- Aerodynamic shape
- Rigid
- 0% lead
- High visibility

# Courant

## Why Tuna?

The tuna, one of the fastest fish in the ocean, inspired us greatly with its aerodynamic shape.

## Have you ever seen a tuna stuck in a tree?

Us? No! The Tuna's streamlined shape and its D-ring perfectly aligned with the bag's extension significantly reduce snagging in narrow forks.

## TECHNICAL SPECIFICATIONS

Interior composition: steel balls, no lead!

Unique piece for rigidity: a D-ring made of stainless steel, originally used in the marine industry.

**PSALY240**  
Weight 240g

**PSALP290**  
Weight 290g

**PSALO340**  
Weight 340g
